Reservable: This indicates whether a computer lab is also set up to function as a classroom and does not have any other restrictions that would prevent reservations by others

Projector: Marks whether or not there is an overhead projector installed in the room for use with an instructor station and/or laptop capable substitution

Sound: This specifies if there are speakers equipped to an instructor station and/or laptop capable substitution for audio playback from the computer or other equipment hooked up to the instructor station

Microphone: This specifies if there is a microphone equipped to an instructor station for uses such as recording classes through Tegrity

Symposium: This is an interactive display monitor that can be manipulated with the attached pen. Good for making on screen notes.

Instructor Station: A computer equipped station, usually in the front of the room, that is connected to other equipment such as projector, speakers, microphones, etc where available

Laptop Capable: This designation means that a laptop can be hooked up to a monitor, projector, and speakers provided those features are installed in the lab

Smartboard: Interactive board, illuminated by a projector, that can be manipulated by finger touch or electronic pens.

Scanner: A flatbed scanner which can be used to scan paper documents to the computer for an electronic copy.

Lab Printer: All labs are equipped with the capabilities to print to the student printing system here at ISU. The Lab Printer column designates which labs have a printer set up specifically for those labs

Blu-ray/DVD/VCR: Indicates if there is a Blu-ray, DVD, or VCR player capable of playing through a projector.
