

Transfer Single Articulation Pathways (TSAP)

1. Established in 2013 as SEA 182 (For additional information visit http://www.in.gov/che/files/TSAP_BW_Binder_Final.pdf).
2. The TSAPs are different from the STGEC as they are more structured and specific for degree programs. So when the student completes the TSAP, resulting in an associate of science or an associate of arts degree, and intends on obtaining a related baccalaureate degree their transfer to a 4-year state educational institution is seamless.
3. Must be at least 30 credit hours
4. A minimum cumulative GPA of 2.0 for the 30 hours is considered satisfactory completion. However, a 2.0 cumulative GPA may not be enough to get a student admitted into a particular 4-year state educational institution or educational program within that state educational institution.
5. Admission applications will provide an opportunity for students to indicate that they will be transferring with a completed TSAP associate's degree.
6. A student who satisfactorily completes the requirements of the TSAP in an Indiana state educational institution and then transfers to another Indiana state educational institution will not be required to retake core courses as they have earned an associate's degree.
7. ALL state educational institutions must accept the TSAPs using the above guidelines.
8. If a student transfers before completing the TSAP, coursework will be articulated on a course-by-course basis by the institution to which they are transferring.
9. You can find a list of TSAPS and their courses at [<insert link when available>](#).
10. Contact Academic Affairs at Academics@che.in.gov if you have questions or need additional assistance.
