

**CRIMINAL BACKGROUND CHECK CONSENT  
DEPARTMENTAL INFORMATION**

Criminal background checks will be conducted on all new support staff, executive, administrative and professional positions and some student and temporary positions. Student or temporary positions requiring criminal background checks are those that involve handling financial, student or personnel data or records, that involves any confidential data or information, work that involves handling cash, checks or credit card transactions and work that involves responsibility for/or providing services for any one under the age of 18. Current employees changing positions to an area that requires background checks for reasons of existing law or contractual commitments will be required to have a criminal background check. Human Resources will be responsible for paying for these criminal background checks with the exception of student positions.

For any other criminal background checks where a department may want a criminal background check, such as Summer Camps, the cost will be the responsibility of the requesting department. Therefore, we need to know which department is requesting the criminal background check and the position that is being filled by the new employee.
