I. CALL TO ORDER

The Indiana State University Board of Trustees met in regular session at 10:00 a.m. on Friday, October 23, 2009 in the State Room, Tirey Hall.

Trustees present: Mr. Alley, Mr. Baesler, Ms. Bell, Mr. Carpenter, Mr. Huckleby, Mr. Lowery, Mr. Minas, Mr. Pease, and Mr. Pillow.

President Bradley, Vice Presidents Beacon, Maynard, McKee and Ramey were present. Also attending were Melony A. Sacopulos, General Counsel and Secretary of the University, Steve Lamb, Chairperson, University Faculty Senate, Roxanne Torrence, Chairperson, Support Staff Council, and Michael Scott, President, Student Government Association.

There being a quorum present, Mr. Carpenter, called the meeting to order at 10:05 a.m.

President Bradley reported an exciting piece of business of great importance on the agenda today is the naming of the College of Business and the College of Education.

The Board will be asked to approve these two resolutions naming the Colleges. The recommendation has the whole hearted support of the Board and the campus.

Trustee Carpenter read the resolutions for naming the College of Business and College of Education.

Nancy Merritt, Dean of the College of Business, said this was a wonderful day. She thanked President Bradley, Gene Crume, President of the Foundation, and others who worked on this and, of course, to Don and Susan Scott.

Mr. Scott said he could not say how much this means to him. Having worked in the insurance business for 40 years he was in and out of the Federal Building picking up mail many times during those years. It is a beautiful building.

My family and my wife's family go way back in the Terre Haute area and I thought maybe this was something I should do as a way of giving back.

II. REMARKS

Report of the Board President (Mr. Carpenter)

Mr. Carpenter said this was his first official meeting as President of the Board. He thanked Trustee Alley for filling in for him at the September meeting. As was noted in the September minutes, I was in Italy.

Congratulations to President Bradley on his first year as President of the University. From my personal standpoint and that of others I am pleased with the progress of Dr. Bradley and hope we will continue with the pace beginning this year.

These are exciting times on the campus with the unveiling of the 5 year strategic plan. I think it is important to plan years in advance otherwise we are doomed to stay where we are. The long term vision of the University is in good hands.

The Student Recreation Center is well used and one cannot say enough about the importance of the facility in the life of the students as well as faculty and staff. Congratulations to the Student Government Association for getting that project going.

I was not here for the dedication of University Hall last month and am anxious to tour the building. We are certainly proud with the results. The naming of the College of Business and Education are critical steps as we continue to move forward.

Progress on the capital campaign will be discussed tonight. It will be a great evening as Trustees host the events this evening. We are very pleased with where we are despite the economic climate. It takes constant engagement to take place for relationships to be built over time.

The Pickerl Hall renovation project that is on the agenda today is an important project. These upgrades are very important for our students. These are the things students expect when they come to campus and if we are to be able to attract students we have to have what the students expect. Our job one is student enrollment.

Homecoming weekend is always exciting. We have a large group participating in the trike race. Emphasis this year has been given to the quality of the parade. The quality of the parade is very important. There will be a record number of tents this year at Tent City at the Stadium. There are many positive things going on.

The leadership summit started this morning. Trustees will hear more about that at a luncheon later this morning and at the sessions this afternoon. We are pleased with the work of those involved in putting this together.

It is Women's Soccer Senior night this evening at the Stadium. The football game is tomorrow afternoon and I am predicting a victory. In spite of the records of our athletic teams – each team and player goes in expecting to win. The teams put in their best effort and no matter what the outcome they give their best effort and are to be recognized for that.

Report of the University Faculty Senate Chairperson (Dr. Lamb)

Dr. Lamb reported that the President's Fall Address went very well. At this meeting the President presented the strategic plan developed by the University body. This plan is as solid a plan that I have witnessed in my forty years at ISU. The goals are practical. They recognize the history of ISU, and are designed to create a strong future. Each of the goals has an effective leader at the helm. I hope that many of us are involved in the implementation of the initiatives designed to accomplish the goals.

The President is of the mind that the institutional salaries need to be competitive in order for it to attract and retain good people, and resources are needed to carry out the strategic plan. Meanwhile, state governments are giving less and less of their resources to higher education, and, there is a limit as to how much we can charge students.

Regardless, we need to finance our strategic plan, and those dollars may have to come primarily from resources that are reallocated internally. The President speaks of the possible need to increase funding by 2 million a year for a period for five years.

A huge portion of our resources are tied up in personnel. Freeing up resources may translate into having fewer employees, unless there is remarkable growth in enrollment. The President has stated that we will not reduce the size of the instructional budget. While this is gratifying, the institution and its employees must work effectively with fewer employees when additional reallocation begins.

The President wants to accomplish the reduction of the work force through retirements. When positions are vacated, individuals may be replaced, but they should be replaced via internal transfers. Difficult choices will have to be made. The faculty are pleased that we have at the helm an individual that has as his primary concern the health and well-being of the institution.

On another note, we have had two full meetings of the Faculty Senate since I gave my last report to the Board.

At the meeting held on September 17, 2009, the Senate dealt with the mission and vision statement which had been the concern of the Mission Committee created by the President during the summer of 2009. The mission statement that the Mission Committee reaffirmed was the statement endorsed by last year's Senate, and thus no action was necessary.

The statement reads:

“Indiana State University combines a tradition of strong undergraduate and graduate education with a focus on community and public service. We integrate teaching, research, and creative activity in an engaging, challenging and supportive learning environment to prepare productive citizens for Indiana and the world.”

The vision statement developed by the Mission Committee was approved by the Senate. This statement reads:

“Inspired by a shared commitment to improving our communities, Indiana State University will be known nationally for academic, cultural, and research opportunities designed to ensure the success of its people and their work.”

We also approved eight curricular items:

1. The name of the Department of Geography, Geology & Anthropology was changed to the Department of Earth & Environmental Systems (EES)
2. A minor in Environmental Sciences in the new Earth and Environmental Sciences department was created
3. as well as a minor in Geochemistry
4. There was a reduction in the core hours required in Health Science
5. This reduction allowed for the creation of two new tracks: an Environmental Health Concentration,
6. and the Health Administration Concentration
7. The Department of Biology was changed from a provisional Department to a Department. The forces behind this evolution would take a historian as well as a behavioral analyst to explain.
8. Finally an Interdisciplinary Program was created which established a home for the combination of Women's Studies, Liberal Studies, and the International Studies Program.

At the most recent meeting of the Faculty Senate held on October 15th, we revisited the Tenure Extension Policy. Changes were made, that if endorsed by the Board, would allow the consideration for the tenure period to be

extended if there were extraordinary circumstances, such as the death of a child or spouse, or the loss of one's home. The extensions would have to be reviewed as a normal personnel matter, ending with the evaluation and possible approval of the Provost.

The academic calendars for 2010-2011 and 2011-12 were approved.

We also endorsed the plan to change the third party administrator of our active employee health plan from Principal to CIGNA as developed by Vice President McKee and Candy Barton, Director of Staff Benefits.

We are pleased to hear of the new structure for the Handbook being developed by Melony Sacopulos, General Counsel and Secretary of the University. This is an enormous task, and will facilitate the operation of the University.

Yesterday, the College of Business had a wonderful meeting with Mr. Donald Scott. We are so pleased to meet the gentleman who desires to advance the well-being of the institution through his enormous generosity.

Gene Crume, President of the ISU Foundation, and his staff also deserve the gratitude of the University given the enormous progress made on the Capital Campaign.

Report of the Support Staff Council Chairperson (Ms. Torrence)

Ms. Torrence reported that early this week the Bi-annual Representative sessions were held with support staff and professional staff attending. A brief overview of the proposal was given to include EAP in the Support Staff Council. Support staff and EAP were given an opportunity to ask questions and give input. We plan to submit the proposal for approval in November or December and hopefully bring the proposal for approval at the February Board meeting.

The Scholarship Committee held their annual soup and sandwich sale earlier this month. One thousand dollars was raised for the Support Staff Scholarship fund.

The Support Staff Council will be hosting a tent at Tent City on Saturday. Council members are looking forward to that.

Ms. Torrence said she is excited about the naming of the College of Business and looks forward to moving in to the Federal Building.

Report of the Student Government Association President (Mr. Scott)

Mr. Scott said students are excited about all of the Homecoming events and look forward to an historic win tomorrow at the football game.

Since the last Board meeting, a couple things have transpired that I am pleased to report. Our spirit initiative has kicked into full swing and we are proud of the results so far. On the first day we handed out 40 vouchers for free t-shirts; on the second day, the line stretched the length of the southern end of the Commons with over 100 students waiting to show their school spirit. Also, we have received a steady stream of students trading in shirts

from other institutions for vouchers. I want to thank President Bradley for his support in this initiative as well as the Support Staff Council for joining us as we attempt to boost school pride.

I had the pleasure of attending the President's Fall Address where the campus strategic plan was unveiled. We are pleased to have the opportunity to be involved in such an endeavor and look forward to its success.

I also want to congratulate the Homecoming Committee for the hard work they have done in planning such a spectacular week of events. Sycamore Sync, the Torchlight Parade, and Pep Rally all saw attendance greater than last year. We are excited about the Trike Race tonight and the parade, Tent City, and the football game tomorrow. For the first time in many years, SGA will have a tent this year and we are excited about that and the prospects of meeting alumni who were former members of SGA.

Internally, we have made progress in creating a functional third branch of government with the assistance of Vice President Ramey and others. We are also working with Dr. Robert English, Associate Vice President for Academic Affairs, and several faculty members on the development of a Students' Rights and Responsibilities Statement.

Lastly, I would like to express enthusiasm that the University is moving forward with upgrading the housing facilities as presented on the agenda today for approval. The remodeling of Pickerl Hall will go far in improving the housing options we offer to our students and the overall aspect of student life on campus.

Report of the University President (Dr. Bradley)

Dr. Bradley thanked the Trustees for approving the recommendations to name the College of Business in honor of Don Scott and the College of Education in honor of the Bayh family

Don, thank you for being here this morning. I deeply appreciate the confidence you have placed in the University. Your generosity will impact generations of Indiana State University students, and your family and your name now literally become a part of Indiana State University's history. Your success story will be a wonderful inspiration to our students and is a great demonstration of the American dream. How appropriate that your name will be placed on our College of Business. We look forward to more formally recognizing you and Susan this evening.

I am also pleased that former Senator Birch Bayh will be here for tonight's gala. It is indeed an honor to have this distinguished Hoosier family indelibly linked to Indiana State University. The connection between the Bayh family and ISU has existed for more than 100 years, and it is exciting to be able to recognize that heritage and to pay tribute to the leadership Birch and Evan Bayh have provided in the area of education.

Tonight's event will also kick off the public phase of the March On! Campaign. I would like to congratulate Foundation President Gene Crume and his staff, Campaign Chair Mike Alley, Co-Chairs Larry and Buffy Boulet and Sheron Dailey along with the entire national campaign committee for the success in reaching this point. I am extremely excited that we are at 55 percent of the \$85 million campaign goal and pledge my commitment to helping us exceed the goal by the end of 2011.

Meeting the goal of the March On! Campaign is one of the benchmarks established in the University's new strategic plan, The Pathway to Success. The plan was rolled out to campus during my fall address last week, and I will be presenting it to our volunteer leaders this afternoon as part of our leadership summit.

I would like to thank Steve Lamb, Faculty Senate Chair, Roxanne Torrence, Support Staff Council Chair and Michael Scott, Jr. President of the Student Government Association for participating in the fall address by bringing greetings on behalf of their constituents. Your participation in the strategic planning process and your supportive comments were greatly appreciated. I would like to thank each of you for your leadership in building the collaborative environment necessary to move the University forward.

In my address last week, I utilized a quote from Winston Churchill that I firmly believe:
“Plans are of little importance, but planning is essential.”

This has been a very important process, one that will guide our activities for the next five years.

The goals we have developed as part of this planning effort and the benchmarks that we will use to measure progress in achieving those goals are detailed in the publication you have at your places.

Admittedly, many of the benchmarks are fairly aggressive. I believe it is critical to our future to establish aggressive goals that will focus our activities during the next five years.

I will be providing a more comprehensive overview of the plan at this afternoon's portion of the Leadership Summit, but I would like to remind you of the six goals.

- Increase enrollment and student success
- Advance experiential learning
- Enhance community engagement
- Strengthen and leverage Programs of Distinction and Promise
- Diversity revenue through philanthropy, grants, and contracts
- Recruit and retain great faculty and staff

Work to implement the strategic plan is already underway. Earlier this week, I met with the implementation chairs for each goal, and on Wednesday, we had a meeting with the implementation chairs for the 29 initiatives identified in the plan. There are already more than 50 campus leaders who have agreed to help advance these efforts, and they are in the process right now of recruiting additional colleagues to serve on the implementation teams for each initiative.

Each year of the five-year plan, the initiative chairs will be required to file a progress report with their goal chair. The goal chairs will then compile a progress report for their specific goal. These reports will be reviewed by audit committees for validation and further input. The resulting reports will then be shared with the entire campus at an annual stakeholder conference. The stakeholder conference will be both a public progress report of the achievements to date and a declaration of the work plan for the next year of the plan. The first Stakeholder Conference has been set for April 22 in Hulman Center.

I would like to thank everyone involved in creating this university plan. Several hundred students, faculty, staff, alumni and community leaders participated. It will now take an even greater number of individuals to keep the

plan dynamic so that progress can be achieved. We cannot let this work collect dust. We must keep moving forward, adjusting strategies as we go along. There will be opportunities for everyone to be involved and together we can help achieve the mission detailed in the mission statement the Trustees will approve today. Most notably, advancing this plan will better serve the needs of our students by helping them achieve their educational goals.

The excitement of this month will continue not only with the gala campaign kickoff tonight, but with the other festivities that are a part of our homecoming celebration. Thanks to the work of the Homecoming Committee, we will have one of the biggest events in the history of our university. The trike race will be the largest in its 46-year history, the parade will be bigger than it has been in the past two decades, and more than 80 organizations will be participating in Tent City at the Stadium. It should be an incredible weekend, and I would like to once again express appreciation to everyone who has been involved. I look forward to seeing all of you at these events.

Section 1. The Treasurer is hereby authorized to investigate, develop, evaluate and effectuate a Plan of Financing with respect to the financing of all or a portion of the costs of the Projects. Further, the use of bond insurance is hereby approved in connection with the Series N Bonds, if deemed beneficial to the University in the best judgment of the President and the Treasurer. In addition, the recharacterization and designation of the Series N Bonds as taxable Build America Bonds with a direct pay option under the Recovery Act is hereby approved, if, in the best judgment of the President and the Treasurer, market conditions would result in sufficient savings to the University to warrant the recharacterization and designation of the Series N Bonds as taxable Build America Bonds with a direct pay option.

Section 2. The issuance of the Series N Bonds by the University on the terms and conditions set forth in the Eleventh Supplemental Indenture is hereby authorized in the total principal amount not to exceed \$10,000,000, plus additional amounts needed for underwriters' discount as described below and original issue discount or bond premium, as permitted by law, capitalized interest (if any), costs of issuance, any amounts necessary to provide for any debt service reserve fund, and costs of any premiums for bond or debt service reserve fund insurance.
